

AI Competence Training for Teams

Our one-day AI Competence Training gives your employees the structure, confidence, and understanding to use AI tools responsibly, efficiently, and in line with your organisation's standards. The course combines practical exercises with clear frameworks for ethical and productive AI use. It is modular and department-specific, covering areas such as marketing, operations, HR, finance, and sales.

Morning (09:00 – 12:00)

- Introduction: The AI landscape and its impact on business
- Responsible AI: Ethics, GDPR, and safe data use
- Hands-on tools: ChatGPT, image generation, and automation
- Department focus (Part 1): Tailored examples and exercises

Afternoon (13:00 – 16:00)

- Department focus (Part 2): Continued practical work
- AI Policy Workshop: Co-create and sign your company's AI usage policy
- Assessment & Certification: Final quiz and discussion (via N60 Training Platform)
